

BJ-1770

Rack Mount Fiber Distribution Unit

Provides for fiber cross-connection, termination, and splicing in a single high-density unit. Ideal for Central Office or POP fiber cross-connects.

Features:

- 19" or 23" bay rack mount
- Terminates 72 or 144 fibers with standard 6 port coupler plates
- Pullout splicing tray for convenient splicing and field termination
- Top and bottom knockouts for pass-through breakout cables
- Two levels, configurable for termination or splicing/storage
- Equipped with vertical cable management
- Room for ample fiber storage and splices
- Optional lockable front and rear doors
- Removable doors with lift-off hinges
