

# BJ-1997

## Rack Mount Fiber Distribution Unit

This unit was designed to terminate 54 fibers in a small space with room for fiber management. An innovative splice shelf provides room for splice storage while maintaining space on the tray for fiber management.

### Features:

- 19" or 23" bay rack mount
- Terminates 54 fibers with standard 6 port coupler plates
- Detachable splice shelf
- Pullout tray

closed front view
