

# BJ-2049 Spillways

BJ-2049A-001 Spillway (for 2" EMT)

As an accessory to the Fire Pass Through Sleeve Kits, the spillway allows for ease of passing cables through walls, floors or ceilings to comply with USEC fire-resistant requirements. The spillway maintains minimum cable bend radius for accessibility and convenience.

**Features:**

- 2" or 4" diameter EMT sizes
- Maintains proper bend radii for fiber/cable
- Provides tie points for fire pillow retention
- Supports up too 100 lbs. of hanging fiber/cable
- Clamp for securing to EMT
- Self-fastening tie down system

BJ-2049B-001 Spillway (for 4" EMT)
